Nunavummi Reading Series

The Nunavummi Reading Series is a Nunavut-developed series that supports literacy learning while teaching readers about the people, traditions, and environment of the Canadian Arctic.

**Emergent
Reader**
Levels 8–11

Books at this stage:

- include more complicated sentences, with less repetition and patterning
- introduce dialogue
- may include new text features, such as headings, bulleted lists, and glossaries
- include mostly familiar topics and themes, but with some books that may extend beyond children’s experiences
- include supportive illustrations or photographs, but more information is now coming from the text

Meet the tiny creatures in the air, water, and soil all around you! The North is full of little creatures that skitter, swim, and fly. This nature book introduces children to insects, spiders, and other Arctic bugs.
